Stephen Rhoades
Community Strategist – Post Acute
Netsmart

Stephen Rhoades is Community Strategist, Post-Acute, for Netsmart, a leading healthcare technology partner for post-acute and human services providers nationwide. Stephen has 22 years of experience consulting on post-acute operations and best practices. He collaborates with Netsmart development and product teams to ensure solutions and services align to client and market needs. This focus enables Netsmart post-acute provider clients across the country to participate and thrive in emerging models of care.

Prior to joining Netsmart, Stephen held various roles with McKesson and Change Healthcare, including implementation, development and consulting of integrated delivery systems (IDN). In that role he was responsible for large multi-state technology implementations for hospice and homecare organizations. In addition, he works closely with clients on operational efficiencies that drive standardization, improved outcomes and lower total cost of care.

Stephen holds a Bachelor of Business Administration – Management Information Systems from Texas A&M University. He is a proud father of four girls and resides with his wife in Missouri. Stephen makes #everydaymatter by "striving to deliver value to clients from the investment they make in technology."
